MANAGER GOLSAN,

ive. He is a negro reared in the United States, being the son of a preacher in Washington. He was educated in Paris, and be-came master of the French, German and Italian languages. Attracting Anson Burlingame's attention, he made him his private retary when appointed Minister to China. Butler soon left the service of the embassy and held positions in one of the great American trading houses, and later with the Shanghai Navigation company. Finally,

the steamers of the company were bought be a number of Chinese merchants, who too Butler into their employ and gave him full authority to reorganize the steam service as he thought best. Butler fully vindicated the confidence reposed in him, and managed the affairs of the company so judiciously that at the end of two years it had gained a net profit of \$1,000,000, with every indication of heavy dividends in the future. The com-pany now owns thirty-six steamers, and is becoming a formidable rival of European steamer-owners, with whom is destined arise a vigorous struggle for supremacy the Pacific. Butler is the moving spirit

247 Main, Memphis. SPOOL COTTON.

THE GREAT ATTRACTION AT THE ATLANTA COTTON EXPOSITION

WOUND ON WHITE SPOOLS. The manufacturers of this Spool Cotton have now put in motion their New Automatic Spooling Machinery, one of the greatest mechanical marvels ever produced. One of these machines will spool or wind over six thousand spools of cotton every day. It lifts up the s empty spools, fastens the thread on each spool, and measures out the 200 yards on a the suppole at the same time. When it has wound and measured the 200 yards, it then cuts the thread on each of the S spoo This machine will be in position in a few days, and will put the tickets on the 0 per minute, or will ticket 102,000 spools of cotton every day of ten hours.

They will also exhibit several beautiful cases of Colored Spool Cottons, which for delicacy of tint and brilliancy of color have never been equaled by any other thread manufacturers.

The manufacturers of O. N. T. will also exhibit their 100-Mile Monster Spools. The feat of winding thread on such enormous spools has never been successfully accomplished by any other thread-They will also have on exhibit on 10,000 Japanese Work Boxes, each box containing 8 spools of O. N. T. Cotton, which they will offer to the public at the low price of 30 cents each.

The manufacturers of CLARE'S O. N. T. SPOOL COTTON are preparing to distribute, FREE OF CHARGE, 100,000 sample boxes of this celebrated thread, which will be prepared in the building.

The manufacturers of O. N. T. are in the proud position of being the largest manufacturers of spool cotton in the world, giving emp-oyment to upward of 6000 operatives.

The enormous increase in the demand for this celebrated thread has compelled the manufacturers to build an addition to their present works in Newark, N. J., and next year, when completed, will give employment to 1200 more operatives.

There are several brands of CLARK'S THREADS, and there is a very general impression among consumers in the south that G. N. T. is wound on black spools. In justice to themselves, the manufacturers of G. N. T. beg to correct this very general mistake, and would state that the G. N. T. is wound on WHITE SPOOLS, and the bottom label of every spool is branded G. N. T. NONE OTHER IS GRUUNE. At this time the manufacturers of CLARK'S G. N. T. SPOOL COTTON are making a special effort
